SM STEPS 5

: product card

A modular, functional shelving system with a steel structure. Each shelving unit can be customised with a unique size and shape. Additional accessories like shelves, lockable cabinets, hangers and seats make the Saar system truly multifunctional. The shelving can be hung on a wall or used to divide an open space, build a counter and much more.

collection advantages

optimal use of space

One of the main advantages of bleachers type of seating is the efficient use of space, which is particularly important in small offices. They make use of not only horizontal space, but also vertical, while offering storage areas.

aesthetic division of space

Creating zones is an important aspect of office design. Auditorium seating is an excellent solution for separating a zone for leisurely collaboration.
