treehouse

TH 6 G2

: product card

Treehouse was created to feel the atmosphere as if it were a child's play, cosy and safe, yet extremely functional. Its form is reminiscent of treehouses, where team partnerships are easily built and where the most creative ideas are generated. The Treehouse collection consists of 1, 2, 4 and 6-person acoustic booths, in closed and open versions. They are ideal for open-space offices separating space and replacing meeting rooms.

design:
Dymitr Malcew Bejot Development Team

collection advantages

privacy guarantee

Treehouse allows users to isolate themselves from most outside sounds, providing discretion and security.

People talking and working in the booths are not heard outside and do not disturb the rest of the employees.

large space

The largest, the 6-person Treehouse acoustic booth functions as a room that can be fitted out with both a conference table and chairs and lougne furniture.

multimedia accessories

The TH 6 booths are equipped with a mediaport with 230V USB and HDMI sockets, installed at a convenient height.
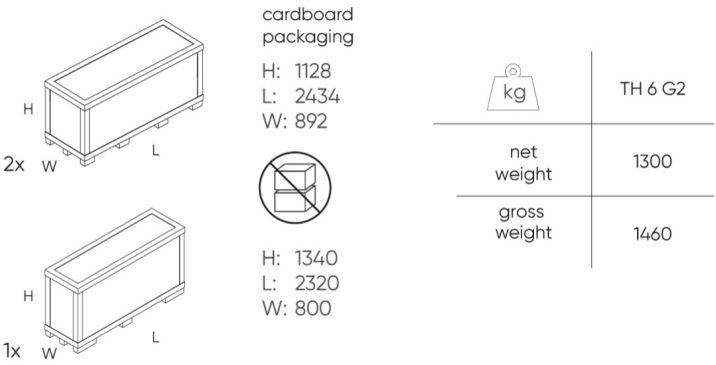

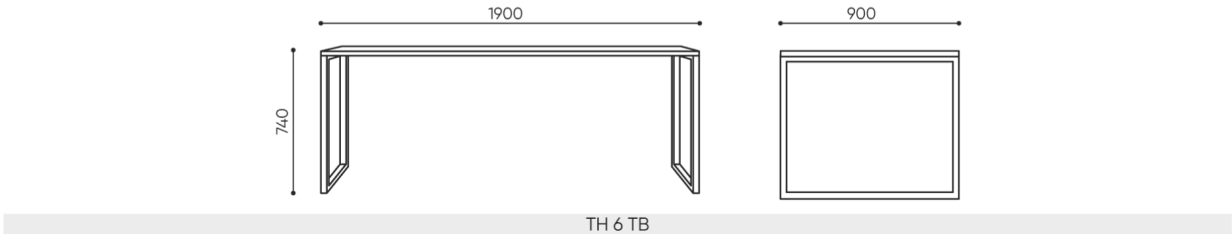

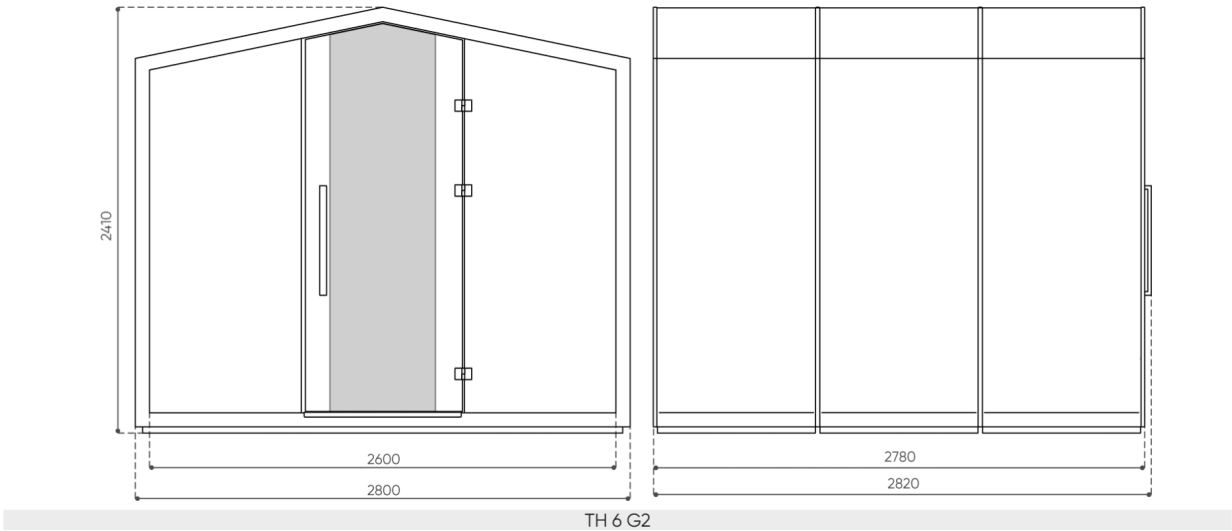

technical data
